

- OPEN SEMINAR -

主催：東京工業大学平成 27 年度 ASPIRE リーグ研究 Grant

Date : 23 Oct (Fri), 2015. 10:00 -

Place : Tokyo Institute of Technology, Midorigaoka Bldg. 6, Midorigaoka Area,
Ookayama campus, 1st floor, Midorigaoka hall, Midorigaoka Bldg. 6.

Time Table :

9:50-10:00

Speaker : Nobutaka Nakahshima, Tokyo Tech.

Title : Opening remark.

10:00-10:30

Speaker : Nobutaka Nakahshima and Yuya Nakamura, Tokyo Tech.

Title : Discovery of valuable genes by massive sequencing and time lapse analysis of environmental RNAs.

10:30-11:00

Speaker : Prof. Byung-Kwan Cho, Korea Advanced Institute of Science and Technology.

Talk about : Systems Biology/Synthetic Biology/Protein Engineering.

11:00-11:15 Break

11:15-11:45

Speaker : Prof. Qian Pei-Yuan, Hong Kong University of Science and Technology, Division of Life Science.

Talk about : Our laboratory' s main research interest concerns larval biology of marine invertebrates, with emphasis on interaction between settling larvae and chemical cues released from marine surfaces.

11:45-12:15

Speaker : Prof. Kevin Pethe, Nanyang Technological University.

Talk about : My research interest is focus on host-pathogen interaction in general, more particularly on understanding the mechanisms leading to diseases progression and on developing new anti-infective agents.
