11th Tokyo Tech International Symposium on Life Science and Technology "Stress on our wellness -from the molecular to the collective levels-"

| Dean, School of Life Science and Technology, Tokyo Institute of Technology15:05Dr. Kanami OriharaPreview talk Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology15:10Dr. Haruo Mizutani Senior Researcher, Suntory Global Innovation Center Ltd. "New wellness indicators based on chronobiological evidences with wearable devices"15:40Dr. Takeshi Maruyama Associate Professor, Waseda Institute for Advanced Study, Waseda University "Epithelial surveillance and elimination of precancerous cells"16:10Break16:21Dr. Keiko Nonomura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions"16:53Dr. Shigenobu Shibata "Circadian rhythm and stress"17:54Dr. Sacid Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment"17:55Break18:10Dr. John Christianson "Stress in the endoplasmic reticulum - a balancing act for cancer"18:40Dr. Mitsue Nagamine Associate Professor, Nokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Chorol "An effect of mindset on regulating stress responses"19:10Dr. Tokinori Fuji19:11Closing remarks | 15:00 | Dr. Susumu Kajiwara <u>Opening remarks</u> |
|--|-------|---|
| Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology Dr. Haruo Mizutani Senior Researcher, Suntory Global Innovation Center Ltd. "New wellness indicators based on chronobiological evidences with wearable devices" Dr. Takeshi Maruyama Associate Professor, Waseda Institute for Advanced Study, Waseda University | | Dean, School of Life Science and Technology, Tokyo Institute of Technology |
| 15:10 Dr. Haruo Mizutani Senior Researcher, Suntory Global Innovation Center Ltd. "New wellness indicators based on chronobiological evidences with wearable devices" 15:40 Dr. Takeshi Maruyama Associate Professor, Waseda Institute for Advanced Study, Waseda University "Epithelial surveillance and elimination of precancerous cells" 16:10 Break 16:25 Dr. Keiko Nonomura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" 16:55 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie <u>Closing remarks</u> | 15:05 | Dr. Kanami Orihara <u>Preview talk</u> |
| Senior Researcher, Suntory Global Invovation Center Ltd. "New wellness indicators based on chronobiological evidences with wearable devices" Dr. Takeshi Maruyama Associate Professor, Waseda Institute for Advanced Study, Waseda University "Epithelial surveillance and elimination of precancerous cells" Break Dr. Keiko Nonomura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" Dr. Sedi Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" Break Dr. John Christianson Professor, Nuffield Dept. of Orthopaetics, Rheumatology and Musculoskeletal Sciences, University of Oxford Stress in the endoplasmic reticulum - a balancing act for cancer" Stress in the endoplasmic reticulum - a balancing act for cancer" Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" Dr. Toshinori Fujie <u>Closing remarks</u> | | Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology |
| "New wellness indicators based on chronobiological evidences with wearable devices" Dr. Takeshi Maruyama Associate Professor, Waseda Institute for Advanced Study, Waseda University "Epithelial surveillance and elimination of precancerous cells" Break Tr. Keiko Nonomura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" Tr. Saei Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba | 15:10 | Dr. Haruo Mizutani |
| 15:40 Dr. Takeshi Maruyama Associate Professor, Waseda Institute for Advanced Study, Waseda University "Epithelial surveillance and elimination of precancerous cells" 16:10 Break 16:25 Dr. Keiko Nonomura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" 16:55 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopædics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinof Fujie | | Senior Researcher, Suntory Global Innovation Center Ltd. |
| Associate Professor, Waseda Institute for Advanced Study, Waseda University "Epithelial surveillance and elimination of precancerous cells" 16:10 Break 16:20 Dr. Keiko Nonmura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" 16:50 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University of Manitoba "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson 18:10 Dr. John Christianson 18:10 Dr. John Christianson 18:10 Dr. Misue Nagamine 18:10 Science Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology 18:10 Dr. Misue Nagamine 18:10 Jr. Misue Nagamine 18:10 Jr. Misue Nagamine 18:10 Jr. Misue Nagamine 18:10 Jr. Misue Nagamine 19:10 Jr. Stess in the endoplasmic reticulum - a balancing act for cancer" <td></td> <td>"New wellness indicators based on chronobiological evidences with wearable devices"</td> | | "New wellness indicators based on chronobiological evidences with wearable devices" |
| "Epithelial surveillance and elimination of precancerous cells" Break Break Dr. Keiko Nonomua Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" Break Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" Sasociate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" Dr. Toshinori Fujie <u>Closing remarks</u> | 15:40 | Dr. Takeshi Maruyama |
| 16:10 Break 16:25 Dr. Keiko Nonomura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZ01/2 channels involved in our body functions" 16:55 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson 18:10 Dr. John Christianson 18:40 Dr. Mitsue Nagamine 18:40 Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute 18:40 Dr. Mitsue Nagamine 18:40 Mitsue Nagamine 18:40 Dr. Mitsue Nagamine 18:40 Mitsue Information regulating stress responses" 19:10 Dr. Toshinori Fujie | | Associate Professor, Waseda Institute for Advanced Study, Waseda University |
| 16:25 Dr. Keiko Nonomura Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" 16:55 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson 17:55 Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford 18:40 Dr. Mitsue Nagamine 18:40 Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulati-stress responses" 19:10 Dr. Toshiori Fujie <u>Closing remarks</u> | | "Epithelial surveillance and elimination of precancerous cells" |
| Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" 16:55 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circacian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "an effect of mindset on regulating stress responses" 19:10 Dr. Toknior Fujie <u>Closing remarks</u> | 16:10 | Break |
| "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" 16:55 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie <u>Closing remarks</u> | 16:25 | Dr. Keiko Nonomura |
| 16:55 Dr. Shigenobu Shibata Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson 18:10 Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie | | Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology |
| Professor, School of advanced sciences and engineering, Waseda University "Circadian rhythm and stress" 17:25 Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie | | "Mechanical stress detected by PIEZO1/2 channels involved in our body functions" |
| *Circadian rhythm and stress" Dr. Saeid Ghavami Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of of Oxford 17:55 In the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology 19:10 Dr. Toshinori Fujie Closing remarks | 16:55 | |
| 17:25Dr. Saeid GhavamiAssociate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment"17:55Break18:10Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer"18:40Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses"19:10Dr. Toshinori Fujie | | Professor, School of advanced sciences and engineering, Waseda University |
| Associate Professor, Department of Human Anatomy and Cell Science, University of Manitoba "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford 18:40 "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie | | "Circadian rhythm and stress" |
| "Autophagy and Cholesterol Metabolism Pathway in Glioblastoma Treatment" 17:55 Break 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie <u>Closing remarks</u> | 17:25 | Dr. Saeid Ghavami |
| 17:55Break18:10Dr. John ChristiansonProfessor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford"Stress in the endoplasmic reticulum - a balancing act for cancer"18:40Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses"19:10Dr. Toshinori Fujie | | |
| 18:10 Dr. John Christianson Professor, Nuffield Dept. of Orthopaelics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" | | |
| Professor, Nuffield Dept. of Orthopaedics, Rheumatology and Musculoskeletal Sciences, University of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie | | |
| of Oxford "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie <u>Closing remarks</u> | 18:10 | |
| "Stress in the endoplasmic reticulum - a balancing act for cancer" 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology | | |
| 18:40 Dr. Mitsue Nagamine Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology | | |
| Associate Professor, Tokyo Tech Academy for Leadership/ Institute for Liberal Arts, Tokyo Institute of Technology "An effect of mindset on regulating stress responses" 19:10 Dr. Toshinori Fujie <u>Closing remarks</u> | | |
| of Technology"An effect of mindset on regulating stress responses"19:10Dr. Toshinori FujieClosing remarks | 18:40 | - |
| "An effect of mindset on regulating stress responses"19:10Dr. Toshinori FujieClosing remarks | | |
| 19:10Dr. Toshinori FujieClosing remarks | | |
| | | |
| Associate Professor, School of Life Science and Technology, Tokyo Institute of Technology | 19:10 | |
| | | Associate Protessor, School of Life Science and Technology, Tokyo Institute of Technology |

*An online gathering may be held after the symposium. Details will be announced separately.
